SEALANT**

Quick and Easy to use
fills and seals cracks
to help increase the
life of blacktop
surfaces

DESCRIPTION:
Asphalt Products Sealant
is a special, non-solvent
formulation designed to
penetrate and seal
cracks in asphalt. It
forms a tough, flexible
sealant that prevents
water penetration and
helps prevent frost
cracking. The sealant
is easy to apply. Use
with a trowel or brush.

NOTE:
This sealant will not
prevent the penetration
of water. It is not
designed for use on
concrete or masonry.

STORAGE:
Store in a cool, dry
place. Do not freeze.
